CPSC Certification of Compliance 16 CFR 1201

In accordance with the Consumer Product Safety Improvement Act of 2008, the Consumer Product Safety Commission requires all architectural glazing materials to comply with the applicable CPSC regulations by issuing a general certificate of conformity based on a reasonable testing system. Vitro America will meet all requirements for implementation effective February 11, 2010.

Vitro America, LLC. will issue an electronic certificate of compliance for each applicable tempered product meeting the requirements of CPSC 16 CFR 1201, which includes a unique identifier for each product. All documentation of compliance is supported by the Safety Glazing Certification Council, a third party certification agency, and may be easily accessed by visiting www.sgcc.org/compliance.

The certificate of compliance shall contain the following information:

- Identification of the product covered by the certificate
- Citation to Title 16 Part 1201 of the Code of Regulations: CPSC 16 CFR 1201
- Identification of the U.S. importer or domestic manufacturer (or private labeler) certifying compliance of the product
- Contact information for the individual responsible for maintaining records of test results, including name, email address, address and phone
- Date and place where the product was manufactured
- Date and place where this product was tested for compliance with the regulation cited above.
- Identification of any third party laboratory (or other conformity assessment body) on whose testing the certificate depends.

In addition to issuing a certificate of compliance for each product, a unique product label will be applied to all products required to meet the CPSC regulation.

Customers will also be provided with easy access to certificate of compliance documentation for tempered safety glass by visiting http://www.vitroamerica.com/products/heat_treated.asp. A certificate of compliance for laminated safety glass may be viewed and printed by visiting <http://www.vitroamerica.com/products/laminated.asp>.
